Badulla, Sri Lanka

Professional Summary

Dedicated IT Technician and founder of KAMA IT SOLUTIONS, specializing in hardware, networking, and software support. I provide reliable, affordable services in computer repair, network setup, and mobile troubleshooting, alongside creating bilingual (Sinhala/English) tech content.

Professional Experience

IT Technician
Apex Laptops

2025 - Present

80 peliyagoda negombo road, Colombo, Sri Lanka

- Diagnosed and resolved hardware and software issues for laptops and desktop computers.
- Performed routine system maintenance, hardware upgrades, and component replacements.
- Installed, configured, and updated operating systems, drivers, and essential software applications.
- Provided prompt technical support and troubleshooting to ensure smooth daily operations

Founder & IT Technician
KAMA IT SOLUTIONS

2023

Bibile, Sri Lanka

- Delivered comprehensive computer repair and mobile software troubleshooting services.
- Designed and implemented reliable network setups for individuals and small businesses.
- Created engaging bilingual (Sinhala and English) tech content to educate the audience.
- Provided cost-effective, personalized IT solutions to meet specific client requirements.

Crew Member
Pizza Hut

Borella, Sri Lanka

- Demonstrated strong leadership abilities by working with management and other staff to ensure all tasks were completed in a timely manner.

Key Projects

Finger Counting App
Python, OpenCV, MediaPipe, NumPy, Time / Math Modules | 2025

- This project uses Python, OpenCV, and MediaPipe to detect hand landmarks from a webcam feed and count the number of raised fingers in real-time. It was a fascinating introduction to computer vision.

Student Managment System
C#, .NET, Database Management | 2025

- Developed a desktop application to efficiently manage, organize, and track student records.
- Designed an interactive user dashboard and secure login interfaces for controlled system access.
- Implemented robust database connections to handle data storage, retrieval, and updates seamlessly.

Python Calculator
Python, OpenCV, MediaPipe, NumPy | 2025

- Developed a real-time computer vision application to detect and count fingers using a live webcam feed.
- Implemented hand landmark tracking accurately using Google's MediaPipe framework.
- Utilized OpenCV for advanced image processing and rendering visual outputs directly on the screen.

Core Skills

Programming Languages

Python, C#, Java, HTML/CSS

Libraries & Technologies

OpenCV, MediaPipe, NumPy, .NET, Database Management, AI Tools, Computer Vision

IT & Networking

Computer Repair, Hardware Diagnostics, Network Setup, Mobile Troubleshooting, Software Configuration, System Maintenance, Windows OS, Linux, IT Infrastructure

Soft Skills & Communication

Technical Support, Customer Service, Bilingual Tech Content (Sinhala/English), Problem-solving, Analytical Skills, Adaptability, Quick Learning, Team Collaboration, Leadership, Creating Tech-Educational Content

Education

Bachelor of Information Technology (BIT)
2025 - Present

University of Colombo School of Computing (UCSC)

Currently pursuing a comprehensive degree in Information Technology, focusing on programming, networking, and modern software development.

G.C.E. Ordinary Level (O/L): Passed
MO/Wellassa Central Collage

G.C.E. Advanced Level (A/L): Passed
MO/Wellassa Central Collage

Professional Certifications

Diploma in Computer Hardware & Networking
VTC-Dehiwala | 2025

Programming in Python
University of Moratuwa | 2025

CYBER SECURITY
AION Campus | 2025

ICT Course with AI
The Advanced Learning Institute | 2025

Notable Achievements

- Successfully founded and currently manage KAMA IT SOLUTIONS, providing reliable IT support and creating educational bilingual (Sinhala/English) tech content.
- Developed practical, real-world software applications including a Real-Time Language Translation App and a Computer Vision-based Finger Counting App using Python.
- Engineered a secure and interactive Student Management System in C# with robust database management capabilities.
- Selected for and currently advancing technical expertise through the highly competitive Bachelor of Information Technology (BIT) program at the University of Colombo School of Computing (UCSC).
- Successfully completed professional training with a Diploma in Computer Hardware & Networking, establishing a strong foundation in IT infrastructure.

Additional Information

Strong problem-solving and analytical skills.

Excellent customer service and communication (Developed through direct client interactions and hospitality experience).

Adaptability and quick learning in fast-paced environments.

Team collaboration and leadership.

Creating tech-educational content for social media.

Exploring emerging AI tools and computer vision technologies.

Continuous learning in software development and modern IT infrastructure.
